NFL Today (32 titles)

"The classy design and large, gorgeously reproduced photos of gridiron action will get [these books] off the shelves.... More than just the standard "greatest hits" package, this oversize series offers narrative continuity for each franchise. A focus on past players and storied histories make these the rare sports titles with shelf life."

Living Wild (8 titles)

"As if the full-bleed *National Geographic*-worthy photos aren't enough of a hook, the books in the *Living Wild* series each start off with a dramatic bang... The layout is uniformly simple but effective, constructed with a nice balance of main text for report writers, smaller chunks of esoterica for browsers, and, again, those killer photos. All in all, upper-echelon animal books for middle-grade researchers."
